Ask us about our "cost effective" Galvanized Metal Framing and Powder Coated railing systems.

ABOUT US: *Evolvedecks Building Enterprises was created with the goal of providing quality cost effective structurally and environmentally sound decks. After many years of repairing and replacing dry rotted wood decks and consideration of the cost and environmental impact of yearly care for wood decks the light gauge metal frame concept was born. Light gauge metal framing is virtually maintenance free, does not rot, is solid, stays straight, and is a green product. Evolvedecks Building Enterprises offers wood framing as well. Metal or wood framing, Evolvedecks provides professional high quality work.*

Services: *Deck Design, New Deck construction, Light Gauge Metal Framing (exclusively), Decking Upgrades, Railing Systems, Stairs and ramps, Repairs, Alterations, Etc. Please contact Evolvedecks Building Enterprises today and we will assist you with making the right decision for the options that best fit your needs.*

Evolvedecks Building Enterprises guarantees that our contracts will be completed 100 % with high-quality performance. We have been in service in Nevada County since 1992 and are responsible for providing quality deck construction and other decking services.
